

SunPower® Complete Confidence Warranty

A better warranty starts with a better product

Every part of your SunPower Equinox® system is meticulously designed to work perfectly together, and rigorously tested for long-term reliability. That's why the SunPower® Complete Confidence Warranty is the only warranty to cover your whole system (not just the panels).

Comprehensive System Warranty

Our warranty covers your entire system for greater peace of mind.

25 years

- Panels (with power production warranty)
- Microinverters
- Racking

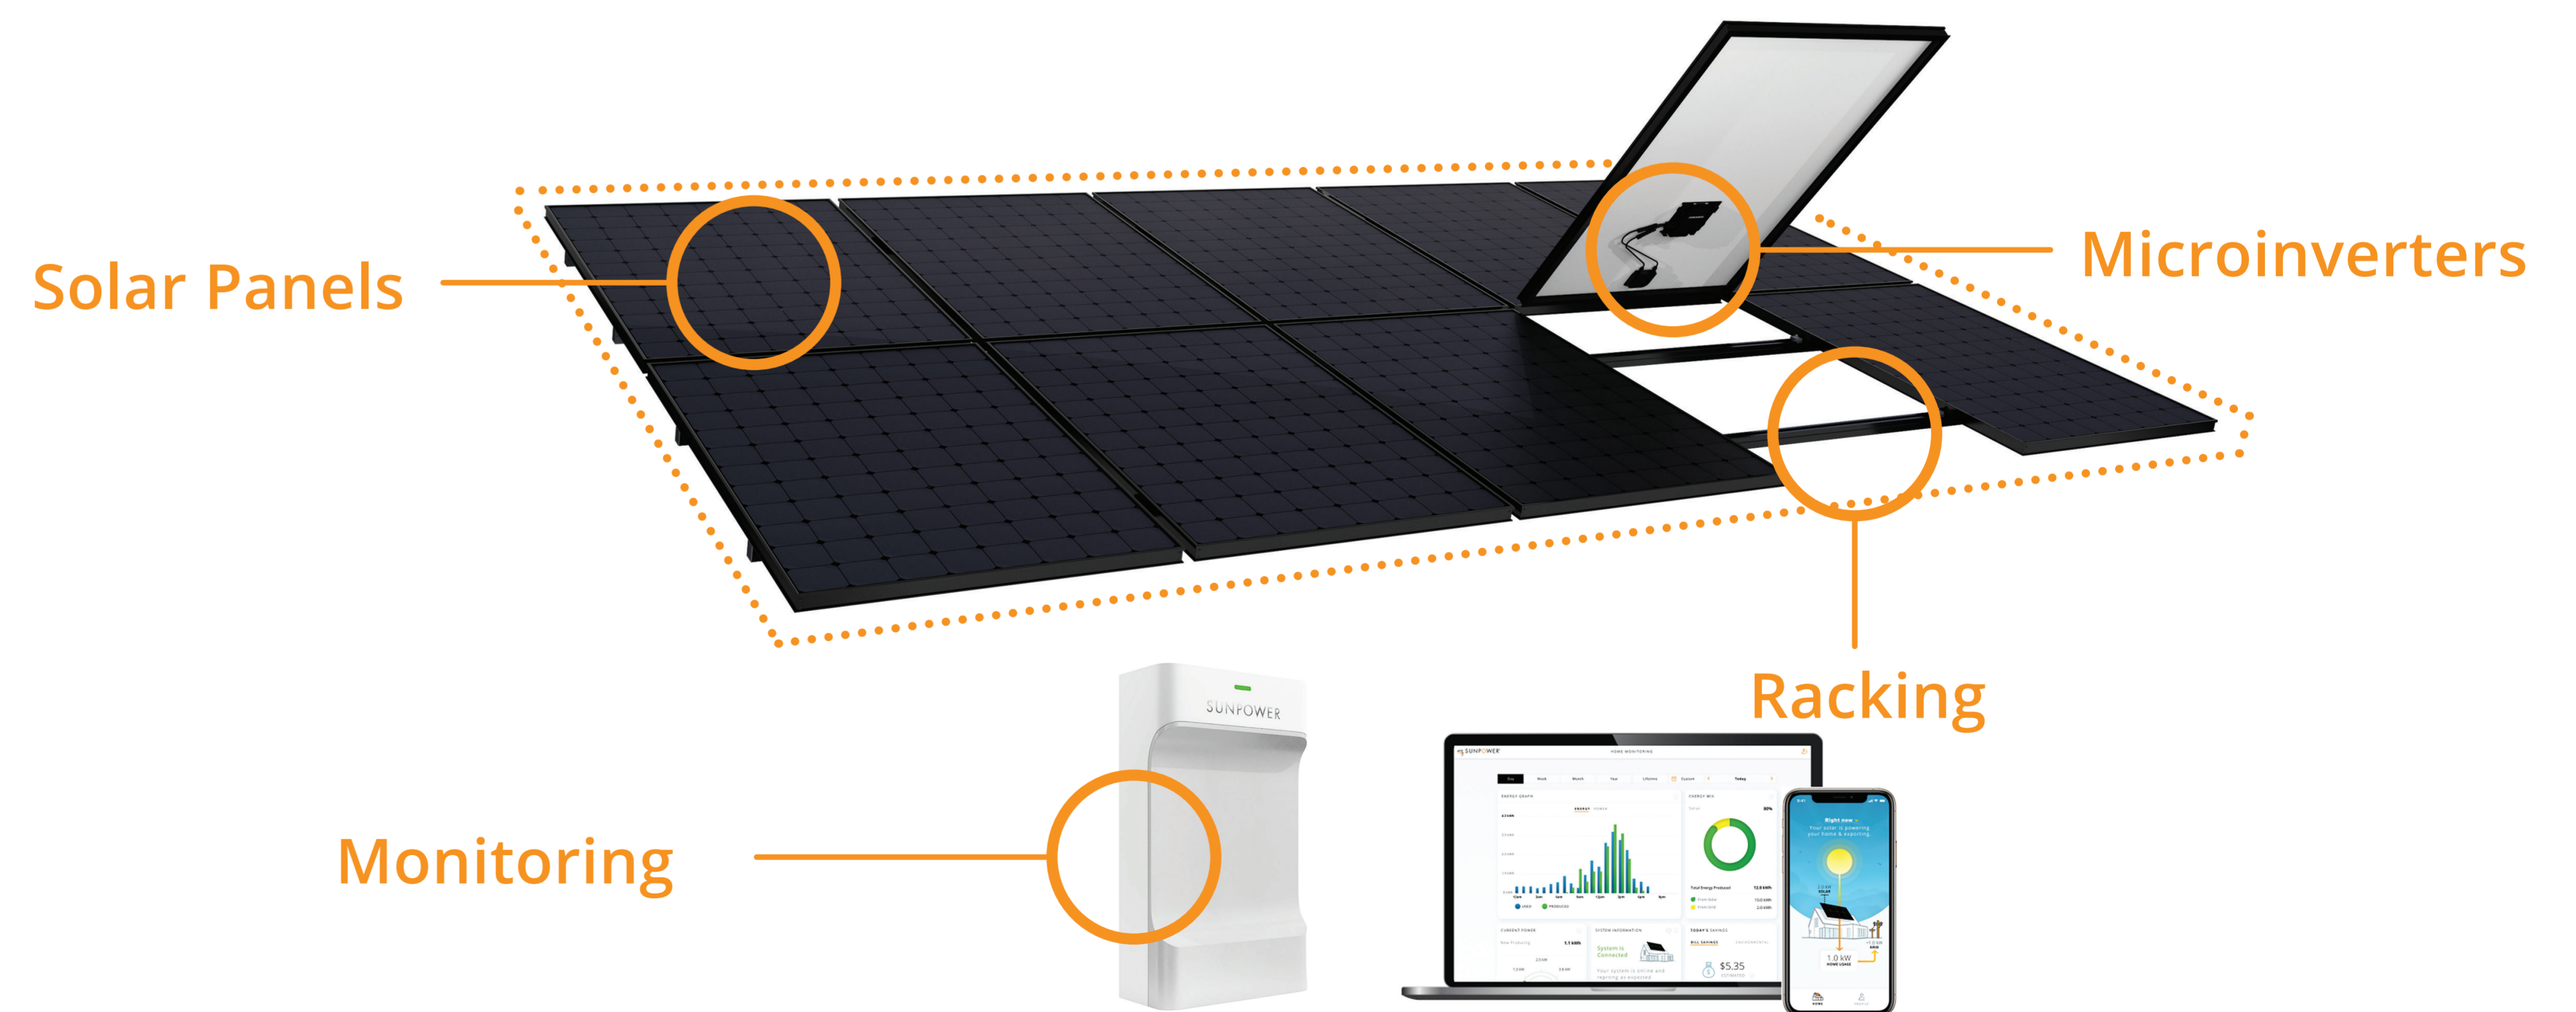

10 years

- Monitoring hardware

Comprehensive Service Warranty

It's the best warranty you may never have to use. But if you do, we make it simple and quick.

*Smartphone and laptop not included

Comprehensive System Warranty

Every part of your SunPower Equinox® system is backed by one company. That way you never have to wonder which company you can depend on.

One company

The only solar company that stands behind your entire system.

Easy process

While most solar warranties are full of headaches, SunPower keeps things simple.

Most comprehensive coverage

25 years for everything on your roof (including panels, microinverters and racking). 10 years for everything not on your roof (monitoring).

Product and power warranty for panels

SunPower will repair, replace or refund a defective panel.¹

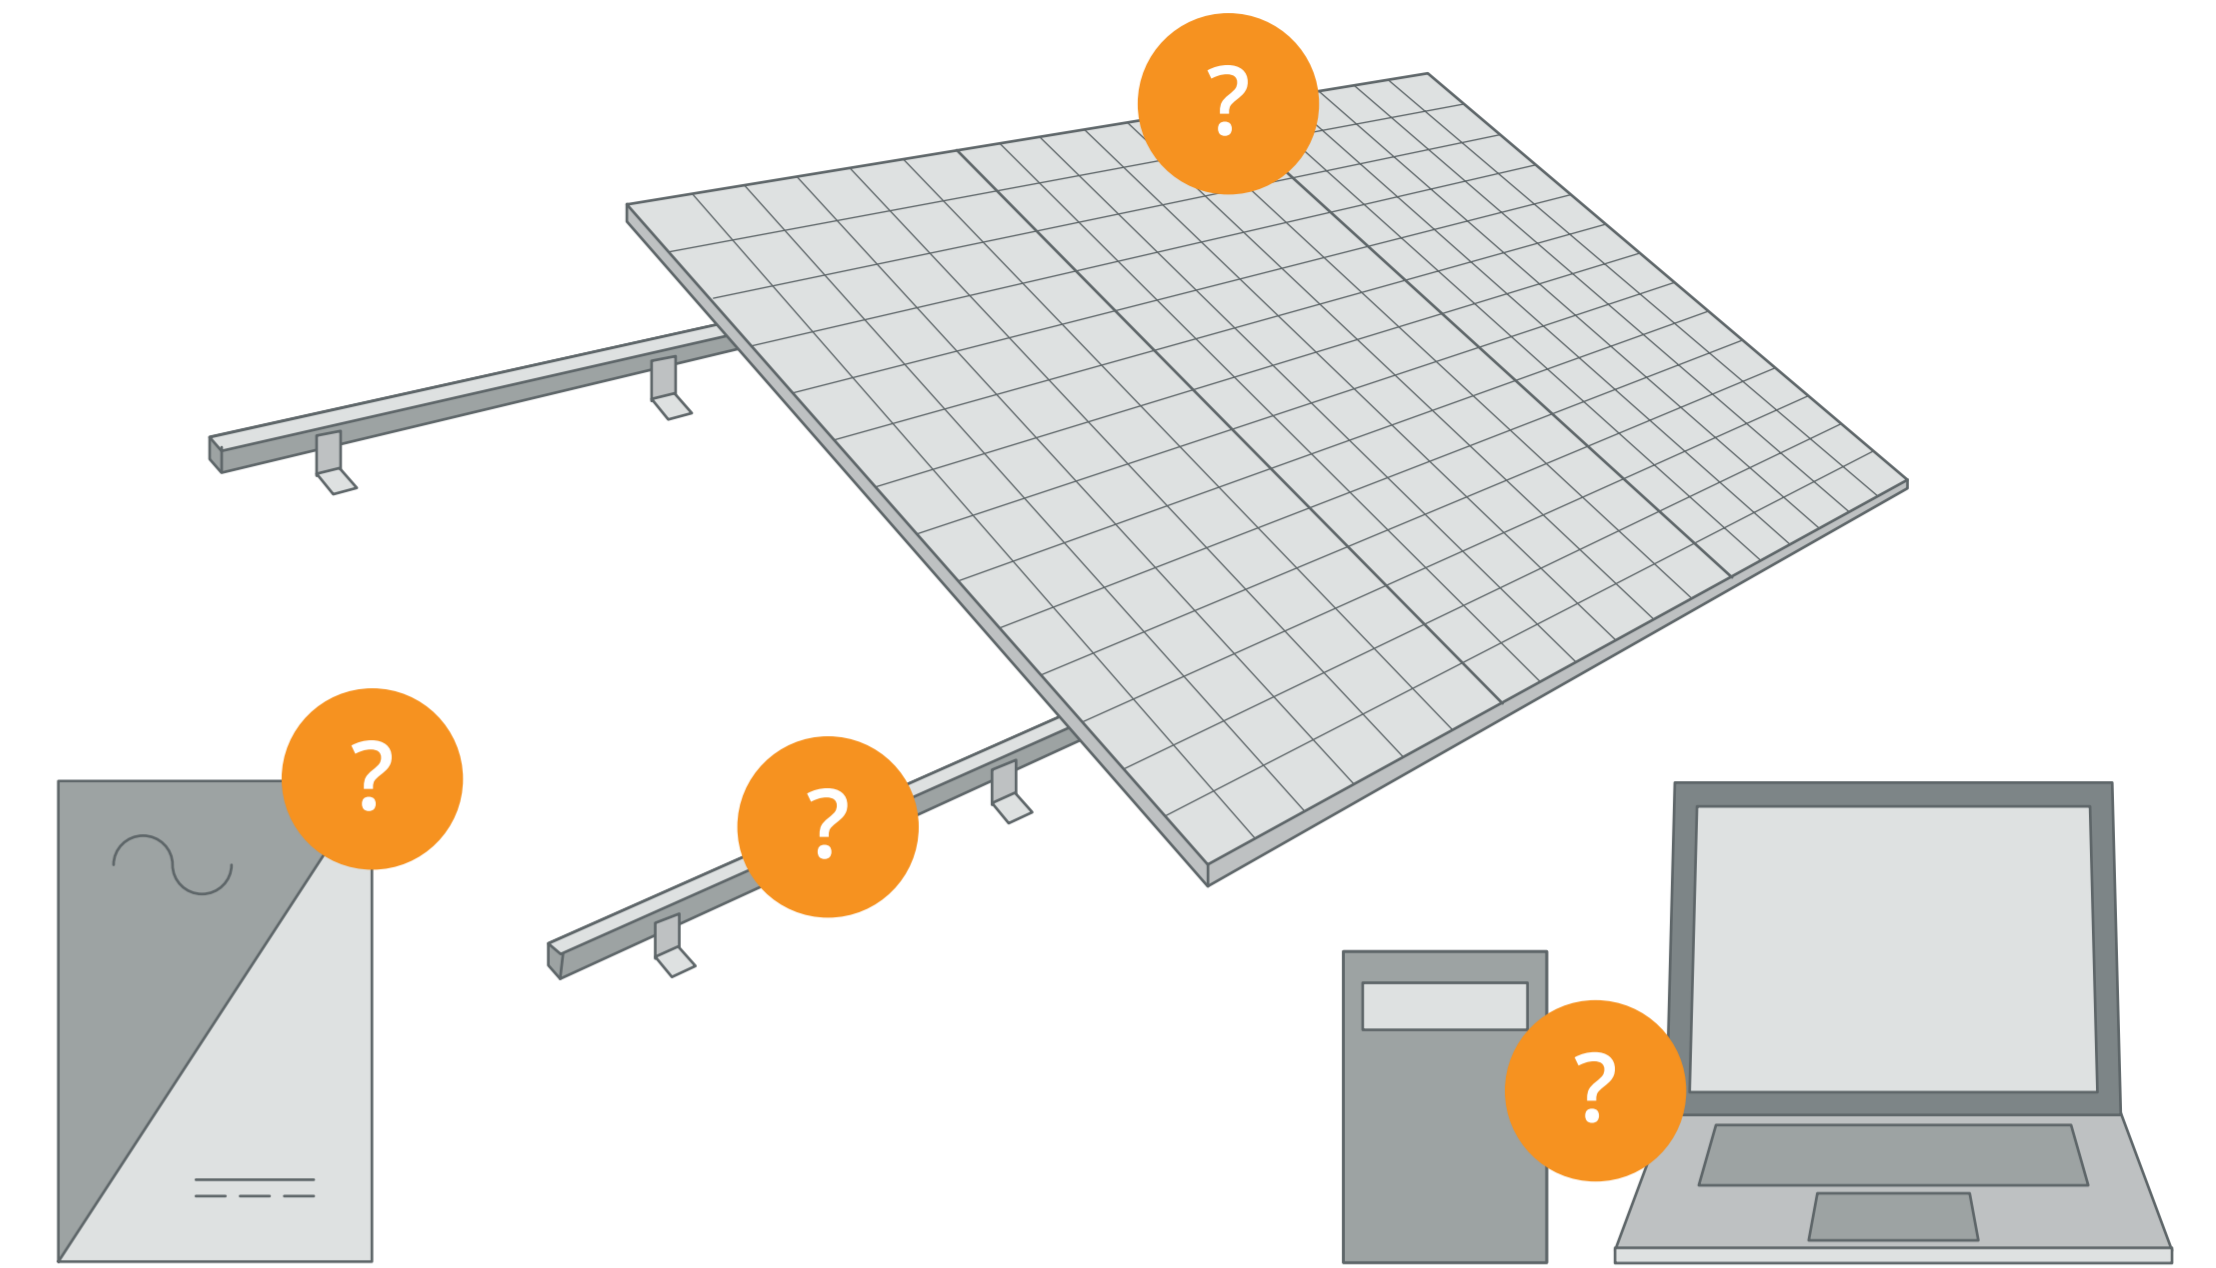

Staying Power

SunPower stands behind our warranties. We are the only major U.S. solar company to be around longer than our 25-year panel warranty and our financial strength is demonstrated by our strong balance sheet.

AC and DC System Warranty

First and only warranty that covers both AC and DC systems, including panels and microinverters.

¹ Repair, replacement or reimbursement will be at SunPower's sole discretion.

Other Residential Solar System

Each part is made and warranted by a different manufacturer.

1

SunPower Equinox® System

One company backs everything.

*Smartphone and laptop not included

Comprehensive Warranty

If you experience issues with your system after purchase, within 25 years for everything on your roof, 10 years for everything not on your roof, we'll send a SunPower-certified installation contractor to fix the issue—hassle free.

We're here for you

Our nationwide network of dealers and installers means a SunPower-certified solar professional is nearby. And we're always just a call away at 1-800-SUNPOWER.

Labor, shipping, parts—it's all included

If a part needs to be replaced, SunPower makes it easy.

Pitfalls of other home solar company solar warranties:

- Some companies require that you pay to ship new panels
- Some companies require that you pay to package and ship defective panels
- Some companies require that you pay the manufacturer a testing fee if they don't find a defect
- Components from multiple manufacturers makes it difficult to figure out who to contact
- Hidden exceptions may not cover shaded panels or installations near the sea
